PROBLEM IN SELECTING CARDS WHILE COMPARING

For selecting a card while comparing 2 OR more cards , Someone has to click only in the yellow area shown in the REFERENCE IMAGE (which is very small) otherwise card will be selected and card details would be shown which is not REQUIRED .

SOLUTION

- The major part of SELECTION preview is the white one and the minor is the blue one .

→ SO , the BLUE area should be used for PREVIEW Card and the WHITE area should be used to select the Card , which will be more convenient for Users .
